

In order to become a member of 720 you must first work out of the hall as a permit for 3-6 months. While you are working you are responsible to ask the job steward for work reports. You need 3 work reports; you can get one work report every 30 working days. You will also have to provide valid trade tickets and you will have to visit the Union Hall to fill out important paper work that will all go in a file that will be reviewed by the Examining Board. The E-Board will make a decision based on your file.
